

Summer Explorations

in

Science

Campers will make daily observations of the scientific world around them through hands-on, minds-on daily exercises.

Technology

Campers will learn about the use of technology in today's environment through robotics and coding activities.

Engineering

Campers will learn to design and build their own projects while exploring the benefits of engineering in the world around us.

Math

Campers will learn to solve everyday problems through daily application of math concepts and new skills.

Learning is fun at Summer Explorations

Summer Explorations is a unique four-week program designed to provide children ages 4 through 13 with an exciting and memorable academic, cultural and social summer experience. Using a springboard of STEM activities, students are guided to discover and appreciate the world around them while learning more about themselves, and becoming more independent and confident in their own abilities.

Explore STEM through a series of hands-on science, technology, engineering and mathematics opportunities.

Explore challenging academic activities in math, language arts, science and geography. Work with money in a bank or make change at the Market.

Camp Sessions & Hours

Regular Camp hours are from 9:00 a.m. to 4:00 p.m., Monday through Friday. Before-Care is available from 7:30 - 9:00 a.m. and after-care is available from 4:00 - 6:00 p.m. Campers need to bring lunches. Snacks and drinks are provided.

Camp Staff

Our instructors are energetic, experienced teachers who are committed to providing a safe, challenging, and nurturing environment and encouraging students to be lifelong learners. Summer Explorations staff are also year-round teachers at Maryland International Day School.

Explore writing techniques by documenting your virtual travel in a journal or read a map to get to your destination.

Explore role-playing, singing, dancing and other performing arts activities. Discover various techniques of expression such as dramatic presentations, singing, poetry, miming and star in your own pint-sized production.

Explore art and unique crafts from various parts of the world. Build a story board and learn how to use photographs to create and publish your own mini-newspaper.

Explore various sports activities such as soccer, volleyball, baseball, basketball, cricket and swimming. Participate in a mini summer Olympics.

Explore another country through a virtual visit. Be an Ambassador for a day.

Explore technology and use computers as a to create your own web page. Prepare fun educational videos to practice and showcase your artistic and academic skills.

Camp Cost

- ⇒ Weekly: \$250.00
 - \$200 if booked by 4/1/17
 - \$25 sibling discount
- ⇒ Entire Season: \$700.00
 - \$600 if booked by 4/1/17
 - \$100 sibling discount
